Annual of Christ Nagar International School

The practice of archery shown on the cover perfectly captures the strive of CNIS and its students to reach mastery and perfection in a vast number of topics from school all the way to extra curriculars. The beautiful background of clouds in the sky serves as a reminder to always dream big and reach marvellous new heights previously thought impossible.

Painting by CNIté Raeka Mampuzha Alex of Grade VIII-I

An artistic illustration of Jesus with long brown hair and a beard, wearing a white robe with a brown sash. He is leaning forward, looking down at a young girl in a blue dress who is looking up at him. To the right, a group of about ten other children of various ages are gathered, some looking at Jesus and others at each other. The scene is set in a lush garden with large trees, green grass, and pink flowers. Sunlight filters through the trees, creating a warm, golden glow. The overall mood is peaceful and tender.

**But he knows the way that I take;
When he has tested me, I will come forth as
gold. My feet have closely followed his steps;
I have kept to his way without turning aside.**

Job 23: 10-11

We may not understand God's plan, all that is expected of us is to trust in him, as Mary our Mother did.

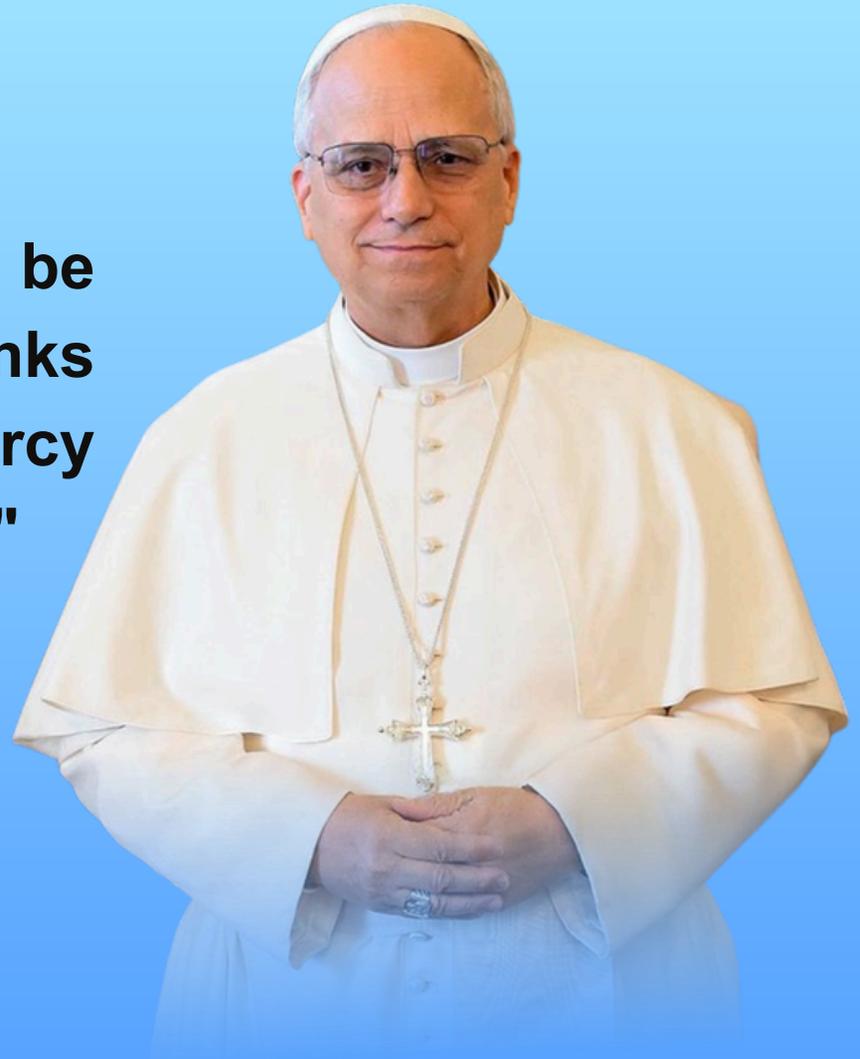

**“Children have been entrusted
in your hands to be purified ...”**

St. Kuriakose Elias Chavara (1805-1871)

"For each of us, every day can be the beginning of a new life, thanks to God's generous love, his mercy and the response of our freedom."

Pope Leo XIV

FROM THE STUDENT EDITOR

This year, our school has hosted many events, including Thrills CNIS, class assemblies, and Annual Day. As we approach the end of another school year, CNltes may feel like this year was forgettable, just a repetition of last year. Even on a large campus with caring teachers, this year might have felt the same as last, and that nothing was truly remarkable this time around. Just an ordinary, boring year, right? Well, I want to change that perspective.

In Thrills CNIS, we danced on stage, sang our favorite songs, and recited poems in front of judges. Maybe you won a prize, maybe you didn't — but every year, our effort was never wasted. Trophies are temporary, but what you learn and gain truly lasts. Perhaps you tried something new—that's another skill you've started developing. By making mistakes and training to improve, you've learned resilience, patience, and courage. These are the true prizes you'll carry into every exam and challenge ahead.

Class assemblies may not have felt like the excitement you get when running in the 100-meter dash on Sports Day, but there's something about preparing for them, working with your classmates and friends to host a program, that's just unforgettable. Sure, there are no prizes awarded, but for me, even now, I still remember, with my classmates, the endless planning behind our assemblies four years ago. What stuck in my mind was how we worked as a team, and gathered our bravery to either sing, dance, or perform in front of the entire school watching.

And finally, who can forget Annual Day, that one time of the year when almost the entire school came together for one event. It was an extravaganza, and one that was unique from all the others. Every Annual Day has been different because every year we are different, and the energy, performances, and memories are always new. We have changed, and we are what makes Annual Day truly special. I, for one, have truly loved and will relish this year's Annual Day, having hosted the formal function in front of hundreds of people and seeing the backstage where teachers were stressing to bring everything together.

In the end, I wanted to bring up an important point about these events that we partake in. They're for us, the CNltes, so that school isn't just about exams. Teachers are burdened with hours of making us practice, getting everything just right, while non-teaching staff help make the backbone for the settings where we can participate in these events. All so that we can safely grow, develop, and make future accomplishments. And I think it's time to be grateful for them. Don't you?
